

NESI HAVER

Senior Program Delivery Manager | MBA - PMP

054-3024096 | nesihaver@gmail.com | [LinkedIn](#)

PROFESSIONAL SUMMARY

Two decades inside product companies. The bridge between business commitments and engineering execution - involved from pre-sales and accountable from project strategy through customer acceptance. Brings structure to complex programs without losing pace. Credentials: PMP, ACP-PMI, MBA

EXPERIENCE

COGNYTE

Product Delivery Manager (R&D)

July 2022 - Present

- Owns delivery of \$30M+ flagship product - the most strategic commercial commitment in portfolio
- Owns 3 concurrent projects for Law Enforcement Agencies and government customers - zero tolerance for failure, full accountability for outcomes
- Leads 8-12 contributors across full R&D organization - matrix management across product, engineering, and QA without direct authority.
- Runs AI Champions group converting team innovations into deployed AI agents that improve operations and feed product roadmap

Project Delivery Manager & Product Champion - Tactical Intelligence (GCO)

July 2020 - June 2022

- Owned multi-region Tactical Intelligence portfolio - roadmap, budgets, and customer acceptance across global projects.
- Kept C-level visibility on revenue milestones tracking delivery against investor-committed targets

iMDsoft

Project Manager

October 2016 - June 2020

- Delivered Nordic healthcare digital transformation end-to-end - development through live deployment across 11 hospitals.
- Enforced zero bug policy across development and deployment - healthcare regulatory software in clinical environments where patient safety left zero margin for error.

STARHOME

Project Manager

January 2014 - September 2016

- Delivered end-to-end customer programs across African telecom accounts - translating requirements into scoped delivery plans and leading project teams to on-time, profitable completion.

Product Expert

January 2011 - December 2013

- Executed turnkey technical deployments for global telecom customers as in-house product SME - solution design through go-live.

CONVERSE

Senior Customer Support Engineer & Project Engineer

January 2006 - December 2010

- Led Tier 3.5 support and on-premises implementations - site upgrades, defect resolution, and technical documentation.
